

DID YOU KNOW THAT...?

SINGforGREEN

is a project funded by the European Union that actively supports ***at least 2*** of the United Nations' Sustainable Development Goals (SDGs):

Bridges academia and practice to create openly accessible learning and teaching material on sustainable design and manufacturing, driving positive changes and contributing to a more sustainable global future.

SUSTAINABLE DEVELOPMENT GOALS

You can check the SINGforGreen website for more information about the project.

Follow us on LinkedIn for more updates.

Co-funded by the European Union
